# How to sign up

Signing up is easy. Just go to https://ubidogy.com and select signup. From there, fill in the required fields and follow the on-screen wizard, and before you look around, you're in the process of electronically signing with Ubidogy.

# Prices

**(Subject to printing errors and price changes)**

We don't use packages like many of our competitors do. We believe in paying as you go.

The more you consume, the less unit price.

The things that determine consumption are how much you store and how much you sign. Our pricing model looks like the following:

| | Starter (GRATIS) | Lille | Mellem | Stor | Enterprise |
|---|---|---|---|---|---|
| **Overskrift** | Trin 1 | Trin 2 | Trin 3 | Trin 4 | Trin 5 |
| Dokumenter gemt på ubidogys lager | 30 | 100 | 250 | 500 | Ingen grænser |
| Dokumenter gemt på eget Azure storage account | 200 | 500 | 1.000 | 2.500 | Ingen grænser |
| Dokumenter underskrevet | 20 | 40 | 100 | 250 | Ingen grænser |
| Underskrifter (hver underskrift tæller som én) | 40 | 80 | 200 | 500 | Ingen grænser |
| **Priser pr.** Danske Kroner | Trin 1 | Trin 2 | Trin 3 | Trin 4 | Trin 5 |
| Dokumenter gemt på ubidogys lager | - | 5,22 | 5,22 | 2,98 | Kontakt salgsafdeling |
| Dokumenter gemt på eget Azure storage account | - | 2,98 | 2,98 | 1,49 | Kontakt salgsafdeling |
| Dokumenter underskrevet | - | - | - | - | Kontakt salgsafdeling |
| Underskrifter (hver underskrift tæller som én) | - | 11,19 | 8,95 | 7,46 | Kontakt salgsafdeling |

The top matrix shows the different tin we have. We arh the following steps:

1) Starter (Usage is free)
2) Small
3) Between

    4)  Big

You always start for free, and you measure on 4 different parameters:
1) How many documents do you store on Ubidogy's storage?
2) How many documents do you store on your own storage?
3) How many documents have been signed?
4) How many signatures have been used?

In a starter, for example, you can store up to 200 documents on your own storage, you can have 20 signed documents lying around and you can make 40 signings.

If one of these parameters is overwritten, you will automatically be sent up on Small Package.

When you get the bill for small package, you can read the prices in the bottom table.

Each document stored on Ubidogy's storage costs DKK 5.22 to store. However, the first 30 documents are free, as they belong to the starter package.

This means that if I have saved 40 documents, then the total quarterly cost of storing them in Ubidogy's warehouse will be the following:

    (5.22)*(40-30)=52.20.

This gives a unit price per quarter of kroner. 1 kroner and 30 øre or 43 øre per month!

For signings, this applies to the number you have signed. The first 40 of one's subscription life are deducted in the first billing quarter. Then you pay the price per signing for the step you are on.

# Payment

We send one invoice per company you create. This means that if you make a standard setup with a company, you get one invoice per quarter. The invoice is sent on the last day of the quarter.

We can invoice in several different currencies, including Danish kroner, EUR and many others.

The payment deadline is 8 days nette.

# Tying

We have no binding!! We think so.

We send an invoice at the end of each quarter, and you must of course pay it.

If you do not want to continue with your subscription, you simply back up your documents, after which you delete them from Ubidogy.com. In addition, you stop making signings and then all costs should stop.

You can also send us an email at [info@ubidogy.com](mailto:info@ubidogy.com) and we will stop your subscription.
